DETAILED ACTION

Claims 3-7 are pending in this Application. Applicant has canceled claims 1-2. New claims 3-7 have been added. Claims 3-7 are present for examination.

Applicant's drawings of March 5, 2007 and new specification of June 14, 2007 is acknowledged.

This office action is in response to the amendment filed February 11, 2008.

Based on Applicant's newly submitted amendment of February 11, 2008 and new office action is issued. See new office action below.

Request for Continued Examination Under 37 CFR 1.114

This is in response to request for amendments filed February 11, 2008 Continued Examination Under 37 CFR 1.114.

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's Request for Continued Examination (RCE) submission and its accompanying amendment filed on February 11, 2008 has been entered.

Consideration of Claim Rejections under 35 USC § 101

Examiner considered claim rejections under 35 USC § 101 for claims 3-6. Applicant's particular "method..." according to applicant has "memory." (Claim 3). Therefore, Examiner believes that no rejection under 35 USC § 101 is required.

Allowable Subject Matter

Claim 3-7 are allowed over the prior art made of record.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of records does not teach the combination of claimed elements including: "stroke coordinate system with drawing centerline segments and component coordinate system having scaling coefficients, and second calling parameters of thickness, scaling coefficients, coordinates and component center and third calling parameter for transforming the character coordinate system ". Thus, prior art of record neither render obvious nor anticipates the combination of claimed elements in light of the specification.

Dependent claims 4-7 are allowed at least by virtue of their dependencies from their pertinent independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Remarks: Based on Applicant's newly submitted amendment and arguments, Examiner believes that all the limitations and Applicant's concerns have been addressed.
